Record gaps

Batch	What needs investigation
CHL-1909-X	Ingredient records are incomplete. A connection to the selected source cannot be ruled out; investigate this batch and its descendants.

Response checklist

1. Confirm the supplier alert, identifiers and scope with your responsible food safety lead.
2. Investigate missing input records and check unrecorded movement and cross-contact.
3. Verify on-site stock and customer deliveries against the original documents.
4. Review required notifications and actions with the responsible lead.
5. Record actions in your incident system. Closing this record is administrative only.

Customer contact draft

REHEARSAL ONLY - DO NOT SEND

Subject: Batch record review - PAP-2409 · recall rehearsal
